

To whom it may concern.

I met Jarey Phillips back in the early 80's at Karate tournaments. He was so fast with his kicks and I enjoyed watching him use those kicks on competitors.

Back in the 80's I knew Jarey to teach Karate out of his house and work on cars in his garage.

I hit a curb and bent a sub frame on an Audi. Jarey gave me the confidence - and told me what to do. I actually replaced it and had no problems. Thanks to Jarey!

Hey Smokee

Its good to hear you have
benished converting the rooms in
your house into a private studio.

I like your idea of using a
private studio together with renting
space by the hour at the Temple
Community center for seminars.

It reminds me of when you
were teaching Karate in your house
with the garage set up for
working on cars.

I'm sure the new classes will
work out great once you get started.

Hopefully we can get together
soon and play some blues.
